General Setup Instructions

- Read entire setup instruction manual prior to unpacking parts and pieces.
- The setup instructions are created specifically for this configuration.
- Setup instructions are laid out sequentially in steps, including exploded views with detailed explanation for assembly.

Cleaning & Packing

- For Cleaning Metal, Plex, & Laminate Parts: Use a **MILD NON-ABRASIVE** cleanser and soft cloth/paper towel to clean all surfaces.
- Keep exhibit components away from heat and prolonged sun exposure. **Heat and UV exposure will warp and fade components.**
- Retain all provided Packing Materials. All provided packing materials are for ease of repacking & component protection.

Disassembly

- For loss prevention, keep all knobs & connectors attached to extrusions during disassembly.
**Straight Connection**

When assembling frame, first attach all straight connectors, then attach corner connectors.

1) Place extrusions end-to-end.
2) Loosen all knobs, then slide straight connector across the seam of extrusions.
3) Tighten all knobs to secure connection.

**Disassembly**

1) Loosen all knobs.
2) Slide connectors off of one extrusion.
3) Tighten knobs to prevent loss during packing & shipping.

All knobs must be tightened securely to ensure a proper connection.

---

**Corner Connection**

1) Loosen knobs, then slide vertical extrusions onto corner connectors of lower horizontal extrusion.
2) Slide corner connectors of upper horizontal extrusion into grooves of vertical extrusions.
3) Tighten all knobs to secure connection.

**Disassembly**

1) Loosen knobs on vertical extrusions.
2) Slide the vertical extrusions off of corner connectors on lower and upper horizontal extrusions.

**Upper Horizontal Extrusion**

- Slide verticals over lower connectors.
- Then slide upper connectors into groove of verticals.
- Tighten all knobs.

**Lower Horizontal Extrusion**

- Adjust connectors if necessary to prevent gaps in connection.

All knobs must be tightened securely to ensure a proper connection.

---

**TSP49 Profile**

**Won't need all the diagrams upfront.**
Frame Assembly - Middle Arch Frame

Assemble frame flat on ground.

Steps:

Refer to the TSP49 Frame Assembly general information page.

2) Connect vertical assemblies [1/2], [3/4] between horizontal assemblies [5/6/7], [8/9/10], using tool-less corner connectors.

Item | Qty. | Description
--- | --- | ---
1 | 1 | 45”h TSP49 Vertical Extrusion
2 | 1 | 31.305”h TSP49 Vertical Extrusion
3 | 1 | 45”h TSP49 Vertical Extrusion
4 | 1 | 31.305”h TSP49 Vertical Extrusion
5 | 1 | 36.467”w TSP49 Horizontal Extrusion
6 | 1 | 36.467”w TSP49 Horizontal Extrusion
7 | 1 | 36.467”w TSP49 Horizontal Extrusion
8 | 1 | 38.019”w TSP49 curved Horizontal Extrusion
9 | 1 | 38.019”w TSP49 curved Horizontal Extrusion
10 | 1 | 38.019”w TSP49 curved Horizontal Extrusion
11 | 1 | 43.209”h Z45 Vertical Extrusion
12 | 1 | 43.423”h Z45 Vertical Extrusion
13 | 1 | 6” x 22” Base Plate w/ adjustable flange (left)
14 | 1 | 6” x 22” Base Plate w/ adjustable flange (right)

Assemble frame flat on ground.

LEFT BASE PLATE:

RIGHT BASE PLATE:

Connection Lock w/ Knob

Base Plate Attachment

Place key hole over bolt on vertical extrusion and slide down. Turn knob to secure connection.

Step 1 of 7
### Frame Assembly - Left Flat Arch Frame

**Steps:**

Refer to the TSP49 Frame Assembly general information page.

3) Install Base Plate [9] to bottom corner of frame assembly as shown. See Base Plate Attachment detail.

Middle & Side Frames Connection

Steps:
1) Connect vertical of Left Frame Assembly to Base Plate of Middle Frame Assembly. See Base Plate Attachment detail.
2) Attach vertical of Right Frame Assembly to Base Plate of Middle Frame Assembly. See Base Plate Connection detail.

**Base Plate Attachment**
Place key hole over bolt on vertical extrusion and slide down. Turn knob to secure connection.

*Place key hole over bolt on vertical extrusion and slide down. Turn knob to secure connection.*

**Left Base Plate:**

**Right Base Plate:**
Fabric Graphic Application

Steps:
1) Apply SEG Graphics to assembled frames. Refer to the SEG Installation general information page.

SEG Graphic Installation

It is important to first insert graphic into each alternate corner, then to the sides of the frame. If this is not done, graphic will not fit into the frame correctly.

Step 1
Insert corner A. Turn edge of graphic so silicon welt is perpendicular to face of graphic. Insert narrow side of welt with fabric to outside into the channel. Repeat for other side of this corner.

Step 2
Repeat Step 1 for opposite corner C, then insert corner B. Followed by corner D, to complete the installation of the corners.

Graphic Removal

To remove the graphic from the frame, locate the fabric pull tab. Gently pull up on the tab to remove the fabric.

Step 3
Once all corners are inserted, press one silicon edge into channel from corners and work toward the center. Make sure welt is fully inserted into channel. Continue until all sides are done. Smooth out edges of graphic.

When assembled
Workstation Counter Attachment

Steps:
1) Attach Workstation Mounting Bracket to backwall vertical.
   See Workstation Mounting Bracket Attachment detail.
2) Attach threaded studs on underside of Counter Top to Counter Legs & secure with wing nuts.
3) Connect Counter assembly to Mounting Bracket using wing nuts.
4) Connect power cords to wireless charging pads.

Hook the Mounting Bracket over the vertical extrusion.

Slide bracket forward, then down onto V4 connector.

V4 connectors stay permanently attached to vertical extrusion.

Tighten thumb screws to secure connection.

When assembled
**Backwall Attachments**

### iPad Swivel Mount Attachment
1. Slide bracket over V4 connector.
2. Tighten knobs to secure bracket in place.
3. Attach angled extrusion between Mounting Bracket & iPad Mount; tighten knobs to secure locks.

### Literature Tray Attachment
1. Slide bracket over V4 connector.
2. Tighten knobs to secure bracket in place.
3. Attach angled extrusion between Mounting Bracket & iPad Mount; tighten knobs to secure locks.

### Floating Graphic Attachment
1. Hook the Graphic Bracket onto the vertical extrusion & snap into place.
2. Affix graphic to Bracket using Velcro.
   - Note: 2 brackets are required.
